# No Slone - Nordic Sustainable Logistic Network

## What is No Slone?

- **No Slone** is bringing together key players from five Nordic countries to establish a common **Nordic network** dedicated to improving cross-border business collaboration within the area of sustainable logistics.
- The aim of the network is to help **Nordic companies** learn and inspire each other while actively collaborating on **creating business**.

## Project focus

- Finding **innovative solutions** for sustainable logistics
- Focusing on creation of real **business opportunities**
- Nurturing **Cross-Scandinavian** and **inter-industry cooperation**
- **Sharing knowledge** on the latest developments in **green logistics**
- Generating **project applications** at both national and international level
- Establishing a **Nordic matchmaking service** in the field of logistics

## Setting the grounds for sustainable development on 5 topics

Alternative  
fuel types

Heavy duty  
transportation

Light duty  
electric  
transportation

Marine  
applications

Business in  
E-mobility

### Your national contact point

- **Finland - VTT:** Päivi Aakko-Saksa; paivi.aakko@vtt.fi; +358 40 720 7846
- **Sweden - Closer:** Jerker Sjögren; jerker.sjogren@lindholmen.se; +46 31 764 70 02
- **Norway - Grønn Bil:** Ole Henrik Hannisdahl; ohh@gronnbil.no; +4797782677
- **Iceland - Icelandic New Energy:** Jón Björn Skúlason; skulason@newenergy.is; +354 588 0310
- **Denmark - Insero E-Mobility:** Jens Christian Lodberg Høj; jchl@insero.dk; +45 4112 5558

#### On a **national level:**

- Benefit from **insightful** presentations
- Expand your business horizons through **company visits** and **matchmaking events**
- Leverage your potential for **cooperation** and **policy suggestion** through targeted **workshops**

#### On a **cross national level:**

- **Nordic conference** on sustainable transportation
- **Nordic website** for latest news on sustainable logistics in the Nordic region and with a global outlook
- **LinkedIn group** for the network

#### Project goals

1. Develop a **Nordic network** on sustainable freight
2. Initiate **5 national & 1 international R&D** project applications
3. Develop a **Policy recommendation** report
4. Organize **40 insightful** presentations on relevant topics
5. Set up **10 national workshops** on development of the industry
6. Develop an **Internet portal** with latest news, reports, research and videos on sustainable logistics
